**TIMELY TOPICS**

WILL THEY SUCCEED ?

The rush into Canada from all parts of the world has once again begun. Some countries are glad for their surplus population to migrate, but other countries are not. Among these latter is the United States. Speaker Champ Clark spoke the other day in the house of representatives in favor of stopping this emigration rush of Americans to Canada by any means possible. He might as well get out and try to stop the rush as to try and stop an enlightened people from seeing the opportunities this country affords, and from taking advantage of its varied opportunities. Said he: "On one day in my county, in one of the richest countries under the sun, four-thirty families loaded up an entire freight train, chartered the train and pulled out for Alberta. There was not a man amongst them who was not fairly well to do. Another man in my district sold his farm for \$40,000. He moved to Manitoba and purchased ten thousand acres of that land up there. He gave to each of his eight children one thousand acres, keeping two thousand acres for himself." Thanks, Mr. Clark, for this voluntary advertisement, Manitoba and Alberta will be the gainers through this effusion. Will the U. S. authorities succeed in stemming the tide of emigration? Not while Canadian opportunities and Canadian laws are superior to those of the United States. We hail our friends from across the border and invite them to assist us in building up a great law-abiding, God-honoring country.

**THE WEST BOTTLED UP**

Someone was saying the other day that this west country is practically bottled up. Meaning that there is at present no outlet for its grain and other resources. That is not strictly true, for Cayley alone during the past week has succeeded in getting cars of grain shipped out, and cars of hogs have been shipped. In we must not forget that soon there will be several additional outlets from this west. We know that railroad construction is a slow process, and that promises along that line are slow of fulfillment. Yet we must not forget that there has been great progress really in regard to railroad construction. And while we are ready to admit that legislative promises are sometimes made to be broken, yet if the people will only keep awake and occasionally jog their representative in regard to the matter, it will be hard for these promises to be forgotten. We must always remind the party in power that if one party cannot or will not, then another party can and will.

**ART OF DIPLOMATIC FENCING**  
Winston Churchill, in his speech upon the naval situation in Great Britain, declared that Great Britain, in order to preserve her existence and that of her colonies, must of necessity continue as mistress of the seas. Germany is practically an insular country with but few colonies, whereas Great Britain is an island, and her colonies

are many and they extend all over the earth, so that a huge navy is an absolute necessity. Nevertheless, Germany, of late years has shown a determination to build a tremendous fleet, for what purpose it is hard to see, except, as some Englishmen think, it be to become mistress of the seas, and thus be in a position to claim other colonies. It is but natural for England to say, "What have we'll hold." And if it is to be a race for naval supremacy, well, we have sacrificed much to get thus far, and we would not be true to ourselves if we did not still maintain that supremacy and make it impossible for any other country to infringe upon our rights.

**SHOULD CANADA HAVE A NAVY ?**

Yes, and no. Yes, providing it is a workable one, built upon the advice of the British Admiralty, and designed to work with the British navy. No, if it is thought that Canada can take her place among nations and become independent. For that would mean a most extravagant procedure, and would saddle this country with appalling yearly expenditures in order to bring such a navy on a par with the requirements of two seaboard. It would then necessarily mean two navies, and they could never work in conjunction with each other. They would both need to be of great proportions. If Canada can have a navy and keep herself from getting a "swelled head," well and good. If she must have a navy let it be acknowledged as part of the British navy, and let it not crankly be an "offshoot" of the British navy, and not for the Empire. Canada certainly can and should either have a navy as part of the British navy, or give a contribution towards the protection the British navy gives.

**Consolidated School Question**

An interesting meeting was held on Wednesday at the home of Mrs. F. Walker for the purpose of considering the feasibility of a consolidated school for Cayley and district. A good number of ladies were present from the surrounding district. Much valuable information was passed in respecting the various phases of the question, which was tabulated for future use. There was an unanimous agreement that a higher education than at present obtained is needed for Cayley, and the lack of this will mean a loss to the village and neighborhood. People will not live in a place which does not provide adequate education for their children. The government has placed much power in the hands of local authorities and it is up to these authorities to overcome any difficulties that may be in the way of giving the children the highest education possible. Without this education they are scarcely on a par with many European settlers, who have the sense to go to large towns for the purpose of taking advantage of educational facilities. The Alberta legislature has given wide powers to country districts, and while there is as yet no legislation dealing with such schools, provision has been made for those districts desiring to amalgamate. It simply requires the arranging of an agreement satisfactory to the district concerned, and approval by the minister of education. According to the opinions expressed by the ladies present, there is an almost universal desire on the

## BURN CAUSED OPEN SORE

Zam-Buk Worked a Wonderful Cure.

Sometimes a burn, a deep cut, or even similar injuries, if not treated properly, may result in a permanent injury, in the form of an open sore. In such cases, Zam-Buk will be found of unequalled value.

J. Nixon, of 501 William Ave., Winnipeg, a blacksmith of the C.P.R. shops, had his foot badly burned by some molten metal falling upon it. He treated the burn with Zam-Buk, and after the first few days it left an open sore, which showed no signs of healing. He discharged the wound and caused the terrible agony.

For three weeks I suffered agony and could get no sleep. At last I obtained a preparation from the doctor, which seemed to ease the discharging, and made me quite hopeful, but finally the wound became as bad as ever.

"I was then advised to use Zam-Buk, and from the first application the pain gave me relief. The inflammation was thoroughly checked, and the poisonous matter cleared away in a very short time after beginning with Zam-Buk. Healing then began, and in less than two weeks the wound was thoroughly cured."

One of the main lesions of this case is the fact that the burn was first of all a scald, and then a burn. It was not a scald, but a burn, and the treatment was different. The burn was treated with Zam-Buk, and the scald was treated with a different preparation.

"This beautiful 'oil' put glass and skin in reduced to its normal state. I wish it were selling at full price. I should get it for my own use, and stamps with it to my bank."

**\$100 Reward, \$100.**  
 The makers of this cure will be pleased to turn over to any doctor or pharmacist who can prove to them that it has cured a case of burn, scald, or other injury, a reward of \$100.00. The cure is sold in all drug stores, and is known as "Zam-Buk."

A tower that will rival the Eiffel Tower of Paris is to be erected at San Francisco for the Panama-Pacific Exposition of 1915. It will be 1,000 feet high, with a base 125 feet high, making a total height of 975 feet.

There are 41 paupers in London for every 1,000 inhabitants.

**Shiloh's Cure**  
 For all kinds of skin diseases, such as eczema, psoriasis, etc.

Shiloh's Cure is a powerful medicine for all kinds of skin diseases. It is sold in all drug stores, and is known as "Shiloh's Cure."

## British Tar's May Rise

From certain indications which have been made public in various quarters, it is not hazardous to surmise that some steps are contemplated which may lead to the raising of the price of British tar. The price of this material is of great importance to the shipping industry, and it is not unlikely that the government will take steps to raise the price of this material.

## Changing Capitals

Changes of capital have occurred several times within living memory, but that is not likely to afford much consolation to disestablished capitalists. The most notable instance is that of British Columbia, whose original capital was New Westminster, now christened by Queen Victoria herself. After some years New Westminster was found unsuitable as the metropolis was shifted to Victoria. Our Crown colony of Fiji in the South Pacific has also changed its capital from Levuka to Suva. The first seat of government in Australia was Parramatta, but the authorities soon shifted to Sydney, although Parramatta for a long time remained the official residence of the Governor.

The Friend of All Sufferers—Like to the shadow of a rock in a winter sea is Dr. Thomas' Eucalypti Oil to all those who suffer pain. It holds out hope to everyone and realises it by stilling everything over which it is laid. It has the blessing of half a continent. It is on sale everywhere and can be found where it is required for.

After ten years' controversy, it had been decided in France that the industry of hair should be left alone, and making use of them a second time is not detrimental to public health.

The Value of a Smile  
 The thing that goes the farthest towards making life worth while, is Dr. Thomas' Eucalypti Oil. It has the blessing of half a continent. It is on sale everywhere and can be found where it is required for.

FRANCE is Europe's leader. For a country to acquire that position, her people must be remarkably thrifty. The people of France are exceptionally so—they begin to save in their youth. No matter how small their income, a portion is regularly set apart for future need. In old age they enjoy the fruits of their thrift. They are a happy nation.

The spending of a savings account is the best way to insure that habit of saving without which it is hard to earn can insure you against possible misfortune.

Cayley Branch, JAMES LYALL, Agent

Head Office HAMILTON

## These Fine Warm Days

Are putting new life into all kinds of industry. Farmers are preparing for seeding. Mechanics are at work erecting houses and barns. With it all comes a demand for HARDWARE. We are prepared for all requirements with a complete line of

### Cayley Hotel

W. A. BOURDON, Prop.

Rates, \$1.50 per day

Alex. Nablo of Calgary was a Cayley visitor over Sunday.

J. R. Fitzgar of Medicine Hat is in town this week.

Will Armstrong and Frank Gillett from Tupperville, Ont., are visiting at the homes L. Beaton and the Wickers Bros.

The street light erected for the village council by McMeekin & Scragg is giving splendid satisfaction.

We have two excellent poems written by two of our local poets which will appear in next week's issue.

Miss Tena McCaw of Vesta, Ont., sister of Mrs. E. Elves, accompanied Mr. and Mrs. Elves on their return home to Cayley.

At the bible class on Thursday night the subject of a Canadian Navy will be settled. Messrs. Lyall and Sinclair will lead the teams.

Mr. Wm. Caspell, accompanied by Mrs. Caspell and daughter, Miss Ethel, returned home on Wednesday from their delightful trip to California.

A special meeting of the U. F. of A. will be held in the Cayley Presbyterian hall on Saturday next. All members are urged to be present as urgent matters will be brought before the meeting.

Mrs. B. Widdup and Miss Sterling arrived home on Saturday from their winter's trip to England after a stormy voyage across the Atlantic. Both are looking well. It is needless to say there's a very happy man at home.

The village council has received a communication from the officials of the Canadian Western Natural Gas Co. to the effect that they will be pleased to supply Cayley from their main pipe, which runs through the village, and that one of their representatives will be in the village shortly and talk the matter over with the council.

The men of the Cayley Presbyterian church are making the most elaborate preparations for their concert Monday night, Monday is All Fools' Day. You don't get fooled if you go to the Men's Concert. The most of it will be good, though part will be very foolish, too. Nobody will be full but the moon, until the refreshments are brought on. Everybody will be full then for they will be free.

#### Football Concert

The concert given last week in aid of the local football club drew together a large and enthusiastic audience. The programme was thoroughly enjoyed by the performers repeatedly encored. The hit of the evening, however, was the sketch, "Going to the Dentist," which brought down the house. The dainty refreshments furnished by the ladies did twice as much appreciated. Fred H. Scragg was the efficient chairman. The following was the programme:

Piano solo, Mrs. Harris and Mrs. F. H. Walker  
 Vocal solo, Mr. Fitzpatrick  
 Vocal solo, H. Bowen  
 Reading, M. Daniel  
 Violin selection, Rev. O. E. Mann  
 Vocal solo, Mrs. F. H. Walker  
 Reading, A. Durham  
 Music, Wickers Bros.  
 Vocal solo, H. Bowen  
 Piano solo, Mrs. Harris  
 Vocal solo, Jack Cohen  
 Sketch, "Going to the Dentist"  
 Reading, M. Newton  
 Vocal solo, A. Durham  
 God Save the King

 W. R. PHILLIPS.  
 Box 35, Cayley

#### Some Vegetable Cures

Water cress is an excellent blood purifier.  
 Lettuce has soothing effect on the nerves and is excellent for sufferers from insomnia.

Tomatoes are good for a torpid liver but should be avoided by gouty people.

Spinach has great aperient qualities and is far better than medicine for sufferers from constipation. It is also excellent for kidney troubles.

Beet root is fattening and good for people who want to put on flesh. So are potatoes.

Parsnips possess the same virtues as sarsaparilla.

Apples, carrots and Brazil nuts are excellent for sufferers from constipation.

Apples and carrots also have a beneficial effect on gouty persons. Raw carrots cure indigestion. When cooked they will cure asthma.

Celery contains sulphur and helps to ward off rheumatism. It is also a nerve tonic.

Dates are exceedingly nourishing and laxative.

The juice of grapes is laxative, but the skin and seeds are likely to cause constipation.

Bananas are beneficial to sufferers from chest complaints.

Onions furnish the most substantial cure for nervous prostration and all other nervous disorders. They have a soothing effect upon consumptives, and are excellent for colds, coughs and scurvy. They have been known to cure la grippe and pneumonia. Onions are also preventatives of insomnia.

Cranberries serve as cure for malaria and erysipelas.

Parsley is an excellent aid to digestion. When eaten with a hearty meal it will prevent dyspepsia.

Strawberries and onions produce a creamy whiteness to the complexion.

Asparagus stimulates the kidneys and by the exercise afforded them strengthens them and thus becomes one of the most important kidney cures. Asparagus also causes perspiration, thereby cleansing the system of impurities.

### St. Patrick Concert BY MEN ALONE

Will be given in

### CAYLEY HALL

under the auspices of

Ladies' Guild of Presbyterian Church

—ON—

### Friday, April 1

St. Patrick will be specially remembered. This concert will be better than that of a year ago
